Sustainability policy

The Hodogaya Chemical Group has formulated the Sustainability Policy as a comprehensive policy on issues surrounding sustainability. This policy outlines our basic approach as well as related policies to each issue.

As a chemical company, we declared our commitment to engaging in responsible care (RC) in 1997 and have been actively and continuously working to protect and improve the global environment. At the same time, the Group has also been addressing with considerable resolve such issues as risk management for natural disasters, etc., the establishment of fair and proper supply chains, human resources management that enhances job satisfaction, and respect for human rights through the established policies and regulations.

Philosophy Structure

Sustainability Promotion Structure

As an organization working on sustainability-related issues, we view sustainability as an overarching concept that encompasses CSR, ESG, and the SDGs. Therefore, we established the Sustainability Development Committee. In addition to the RC & QM Subcommittee, which deliberates on such issues as the environment, safety, and quality assurance, the Sustainability Development Committee established the Global Environment Subcommittee and the TCFD Subcommittee to address specific issues. Details of Committee agenda items are regularly reported to and deliberated by the Board of Directors and the Management Committee for approval.

Collaborative Value Creation with Stakeholders

In addition to its shareholders, investors, customers, partner companies, personnel, local communities and society, the Hodogaya Chemical Group considers the global environment as one of its stakeholders. We are engaging in a variety of initiatives to promote collaborative creation of value with all stakeholders, which we recognize is indispensable for corporate activities based on our management philosophy as well as contributions to the resolution of social issues.
